ABOUT ME

I am an MCA student with strong knowledge of Python, Django, HTML, CSS, and JavaScript. I have completed multiple projects and gained practical experience during my internship by developing a Cab Booking System using Django and MySQL. This experience helped me understand real-world web development, backend logic, and database management. I am a quick learner and eager to start my career in software development.

WORK EXPERIENCE

2025-2026

Web Development Intern

I developed a Cab Booking System using Python and the Django framework, where I designed and implemented user and driver modules for booking and management. I worked on backend logic, database design, and API integration, using MySQL to store user data, booking details, and ride information. I also created a user-friendly interface for booking, tracking, and managing rides, and performed testing and debugging to improve the overall performance and usability of the application.

PROJECTS

Cab Booking System (Internship Project)

I developed a web-based Cab Booking System using Python, Django, MySQL, HTML, CSS, and JavaScript, which allows users to book rides easily. I implemented user and driver modules for efficient ride management and designed backend logic with API integration to ensure smooth functionality. The system uses a MySQL database to manage user data, bookings, and ride details. I also created a responsive and user-friendly interface for booking and tracking rides.

Online Food Shopping System

I built an e-commerce web application using Python, Django, and MySQL for browsing and ordering food items. The system includes user authentication, a shopping cart, and order management features to provide a smooth user experience. I also developed an admin panel to efficiently manage products, categories, and customer orders.

EDUCATION

Master of Computer Application (MCA) 2024 – Present

Kadi Sarva Vishwavidyalaya, Gandhinagar, Gujarat

Bachelor of Computer Application (BCA) 2021 – 2024

Kadi Sarva Vishwavidyalaya, Gandhinagar, Gujarat

CGPA: 7.54

SKILLS

Programming Languages:

Python, C, C++, C#

Web Technologies:

HTML, CSS, JavaScript

Frameworks:

Django, REST, .NET

Database:

MySQL, SQLite

LANGUAGES

English

Hindi

Gujarati
